```
$ pacman -Ss chrome-remote-desktop
archlinuxcn/chrome-remote-desktop 40.0.2214.44-1
Allows you to securely access your computer over the Internet thro
ugh Chrome.
```

□□□□□□□□□□□□□

groupadd□□□□□ ID “chrome-remote-desktop”

Please create ~/.config/chrome-remote-desktop folder manually, if it doesn't exist, or else you can't use CRD. The needed files are created by the Chrome app, inside the chrome-remote-desktop folder, after Enabling Remote Connections. To {enable,start} the service use systemctl --user {enable,start} chrome-remote-desktop

You may need to create a ~/.chrome-remote-desktop-session file with commands to start your session

> Go to https://support.google.com/chrome/answer/1649523 for more information.
